## Petition to Penrith Mayor and Councillors - Save former Air Services Australia Site Cranebrook

To the Honourable Mayor and Councillors of Penrith City the citizens of Western Sydney brings to your attention our complete opposition to the rezoning application by the developer, IFC Capital Ltd, which, if approved by Penrith Council, will allow urban development of the environmentally sensitive 181-hectare former Air Services Australia Site at the Northern Rd Cranebrook.

The undersigned petitioners call on all Councillors to reject the IFC Capital rezoning application and instead rezone the entire site for conservation purposes and to collaborate with the NSW Government to acquire the land from IFC Capital Ltd so that it can be owned and managed by the NSW Department of Environment and Conservation as part of the NSW National Parks Reserve System.
